

## COUNCIL WILL COMBINE NO OFFICES

One Man to do Police and Sanitary Work--Night Policeman Resigns--Request From Ladies to be Allowed to Improve Park is Granted.

The regular meeting of the town council held last Monday evening was one of the liveliest held for some time. Business was going on very much as usual with the question of merging into the two positions of day police and sanitary inspector. Then followed a series of motions and amendments and, in turn, withdrawals. During the bombardment some heavy artillery was brought into action and after a series of cross fires and sniping some of the councillors went over the top into no man's land. Finally, when the smoke had cleared away, a motion by Councillors Howard and Lydiatt brought the council to a unanimous decision.

Mayor Best occupied the chair and a full council was present.

His worship reported on his recent trip to Winnipeg to interview the bank officials regarding the town's finances and stated that satisfactory arrangements had been made.

Councillor Lydiatt, as chairman of the waste committee, submitted a report regarding the request from Mr. Hutchinson of the pumping station for an increase of \$10.00 per month in salary which had been referred to that committee. The report recommended that the increase be given and was approved by the council.

A letter was read from Night Policeman R. Everett, tendering his resignation. The resignation was accepted.

A letter was read from a committee of ladies from the Red Cross asking to be allowed to make some improvements and plant trees in the town park, and for the use of water for same. On motion of Councillor Lydiatt and Howard the request was granted provided work done was supervised by town foreman and water not subject to same restrictions now in force for private residences.

Chief Dunnett reported that all the jitney licenses had been received. The Secretary Council reported that he had received a copy of the changes made in the town act at the last session of the legislature. The most important of these were read over by the secretary, all of which may be seen in the supplement in this issue of the Review.

As requested by the council the secretary submitted a report showing the amount of water used in town. The report showed that 5,375,250 gallons were used during the month of May. It was computed that this meant 62.4 gallons per head of population.

Prices for billing for the pump station were submitted but it was decided to leave the matter of purchasing same over till other prices have arrived.

As the school board asked the council in a body the extension of the school and not in a committee of the whole. At this stage the press and public were asked to retire.

After a conference with the board, council resumed but as the committee of the whole did not report, its business in the school board adjourned. As a consequence, and as there was no motion entered on the minute book endorsing the action of the committee of the whole, the committee of the whole was dissolved.

The attention of the council was drawn to the condition of the town hall building and it was pointed out that some repairs were necessary. The matter was referred to Councillor Howard and Lydiatt to investigate and report at next meeting.

Councillor Lydiatt said that the town foreman had drawn his attention to the need of a small wagon to be used for hauling town tools from place to place. Council thought such a vehicle would be a good investment as it would save draying expenses. The foreman was instructed

to get prices on converting the present town buggy into a rig suitable for this work and report at next meeting.

Councillor Lydiatt said it had been suggested to him by several ratepayers that the council should combine the two positions of day police and sanitary inspector into one. The mayor did not think the two positions could be worked in satisfactorily. He thought, however, that as the sanitary inspector's duties call for night duty, it would be a good idea to award him in as policeman so that he could perform that duty if occasion should arise.

Councillor Broughton thought this was a matter in which all the councillors should declare themselves. He thought that if the council could save the town \$100 a month and get reasonable service they should do it.

Councillor Oates thought that in view of past experiences both in town affairs and private enterprises where bodies composed of men of different ages and doubling up process in staffs it would be advisable to give this suggestion a try out.

Councillor Best thought that one man could attend to the work at present done by the police and sanitary inspector and he therefore moved that the two positions be merged into one.

This opened up a discussion in which there was not only a difference of opinion but considerable misunderstanding. In view of the fact that Night Policeman Everett had already resigned, Councillors Lydiatt and Howard asked if it were the intention of the motion to have one man do the work previously done by three.

While they were in favor of combining the two day offices they thought there should be some night protection and that one man could not be expected to keep himself in readiness for service for 24 hours of the same opinion. It was then suggested that the motion be made clear on this point by embodying provision for a night police. The mover and seconder would not consent to this and the motion was put with the following result: Yeas--Councillors McLean, Oates and Broughton.

Nays--Councillors Lydiatt, Howard and Lydiatt.

As the vote was a tie the mayor cast the deciding vote. He voted nay and the motion was declared lost.

In an endeavor to arrive at a solution of the question several motions and amendments were made but all were withdrawn when it was moved by Councillor Howard, seconded by Councillor Lydiatt, that the sanitary inspector also be chief of police, that a board of health be added to appoint the sanitary inspector and that a night policeman be appointed to assist in the day work. This motion carried unanimously.

Councillor Lydiatt asked what progress was being made with the Clay Products Company matter the survey agreement. Town Solicitor Baird replied that a satisfactory agreement, whereby the company relieved the town of any further responsibility, had been arrived at.

Council then adjourned.

## Grading Outfit

Arrives at Hanna

A report from Hanna states that the grading outfit for building the C. N. R. branch line from that point to Redcliff has arrived there and that operations will be commenced at once.

It is expected that the line will be completed to the Red River in time to move out this year's crop and that work will be resumed from the river here after harvest.

## Wales Players at Chautauqua

Present Noted American Play "Rejuvenation" Third Night

### CLARE VAUGHAN WALES' PLAYERS.

One of the feature attractions of the coming Chautauqua will be the appearance of the Clare Vaughan Wales' Players on the third day. In the afternoon they will present the one-act comedy, "The Hypochondriac," and in the evening the famous American play, "Rejuvenation," by Warren Hastings.

Clare Vaughan Wales, the talented actress who heads the company, needs no introduction to Chautauqua audiences. Her career of twelve seasons as manager of her own company, which includes six trips across the continent, has long since demonstrated her standing in the dramatic world.

## CLAY PRODUCTS TAKEN OVER BY NEW COMPANY

New Company Has Men at Work Repairing Building and Machinery--Will Commence Operations Soon.

The brick plant in this town known as the Redcliff Clay Products, has changed hands during the past week and the new owners of the plant now have a gang of men at work repairing the buildings, machinery and kilns, getting everything in shape to start operations in the near future.

Mr. Frost, of Medicine Hat, has been engaged as manager and has moved into the residence on the company's property. In an interview with the Review today he said that the repair work is being rushed with all possible speed but as they had to send away for a number of repairs for the machinery, he could not say exactly when the plant would commence operation. He has a staff of about 25 experienced workmen already engaged and does not contemplate any difficulty securing the additional laborers necessary. When this plant opens up for business under the new management it will likely employ between 30 and 40 men.

## Pressed Brick Plant Prepare for Operation

Workmen are now busy repairing the several kilns at the Pressed Brick plant here so as to have them in readiness for operation.

Although it is not yet definitely known just when they will commence making brick at this plant, we are informed that there is now a growing demand for brick throughout the west and present enquiries for prices would indicate that there will be a busy season in this line in the near future. At the present stock now on hand is weekly diminishing it may be necessary to commence operations within a few weeks. With these prospects the management is getting ready for operation.

## BOY SCOUTS

ATTENTION!

The regular meeting of the Boy Scouts will be held in the school tonight (Thursday) instead of Wednesday, as previously arranged. The meeting night was postponed, as Scout Master Howard allowed the boys to attend the Chautauqua parade in uniform last night.

## Local Foundry Gets

Order From Japan

The foundry in the old Ornamental Iron building, which is now being operated under the management of the Rolling Mills, is now developing into one of the busiest places in town. The plant has been kept busy attending to work from other industries in town and orders coming in from surrounding towns and country. In addition to this they received a big order last week from Japan for between five and six hundred tons of ingots and other castings to be shipped as soon as possible. To facilitate the turning out of this order on ingots some alterations have been made in the plant and it is now running most satisfactorily.

The orders now in hand will make the foundry running at full capacity for several months to come.

## Brick and Coal Co.

Want More Men

In this issue of the Review the Brick and Coal Company here is advertising for men to work in that plant.

Both the coal mine and brick plant operated by this company have been running steadily now for some time but the increasing demand for their goods warrants them putting another lot of the brick making machines in operation as soon as possible. At present about sixty men are employed in the brick plant and they require about twenty-five more in order to start up some of the machinery and this will be done as soon as the men are available.

The coal mine is also operating steadily and although the demand for it is not as brisk now as it should be in view of possible conditions next winter, the men are preparing for the full and winter rush.

## Prairie Fire

Causes Excitement

The blowing of the fire whistle last Monday afternoon when the wind was blowing about a 50-mile an hour gale, caused considerable excitement and the clouds of smoke which rapidly spread over the town added to the serious aspect of the situation. Fortunately no machinery was damaged by the fire but if the fire brigade and other willing workers had not arrived in time the result surely would have been serious.

The fire is supposed to have started from the town dump at the mill race ground, where some rubbish was being piled up and the high wind fanned it in all directions. Before they were under control the flames came dangerously near the Rolling Mills and other buildings in that locality.

## CHAUTAUQUA ON HERE TO-MORROW; TO RUN FOR WEEK

Tent Located on Broadway Next to Royal Bank--Good Program Every Afternoon and Evening During The Engagement.

From present indications the success of the Chautauque which opens up here tomorrow (Friday) for a week's engagement, is now assured. All preliminary arrangements have been completed and although there are still a number of tickets to be sold before the local committee can make up their guarantee, it is expected that when all the preliminaries are fulfilled this will be accomplished. However, we would advise all who intend purchasing season tickets to do so as soon as possible, as prices will be advanced on the opening day.

The tent for the Chautauque will be pitched on Broadway on the vacant lot just west of the Royal bank and the opening program will be on Friday afternoon at three o'clock, when the Iolanthe Serenaders will be the entertainers. The Serenaders will also conduct a musical program in the evening and will be assisted by A. Mather Hill, baritone, from then on there will be a musical program every afternoon and evening at each of which there will be an entire change.

Interpreted throughout the week will be addresses on local topics by talented speakers among whom are Major G. W. Kirby, Dr. Wm. Rader, H. W. Wood, Dr. W. J. Hindley and J. Sherman Wallace.

We would draw the attention of farmers especially to the address by H. W. Wood, president of the U. P. A., Wednesday afternoon next, as matters of interest to them will be discussed.

Everybody jump in with a vim and help make this Chautauque a success.

## Red Cross Still

Makes Good Showing

The regular meeting of the Red Cross executive was held last Tuesday afternoon in the society's rooms.

A communication was read from the Red Cross committee of the town which they acknowledged having received monthly reports regularly and thanking the local branch for same.

Mrs. R. R. Stoner wrote tendering her resignation as convener of the town committee. The resignation was accepted with regret and a vote of thanks tendered to Mrs. Stoner for her able and untiring services.

Mrs. Moffatt was appointed to fill the vacancy.

Mrs. Moffatt and Mrs. Argue were appointed a committee to investigate the advisability of purchasing a sewing machine and if thought necessary to procure the same.

A letter was read from the Medicine Hat Branch offering candidates for reasonable price to be sold for Red Cross purposes.

The matter was referred to the superintendent of the Junior branch.

It was decided that there be no meeting of the town committee Tuesday afternoon on account of the Chautauque.

The treasurer submitted the following financial statement for May 15 to June 15, 1915:

RECEIPTS.  
Balance May 15.....\$ 4.25  
Monthly Collections.....  
General.....52.50  
Prisoners.....8.85  
Total.....\$ 65.65  
Concert.....1.00  
Bodge Sold.....35  
Rolling Mill employees.....150.15  
Donation (P. Greenwald).....

PAYMENTS.  
Balance June 11.....\$219.25

## TAX SALE WILL BE HELD HERE ON JUNE 17th

Indications Are That Good Crowd Will Be in Attendance--Prospects Good for future of the Town.

Everything is now ready for the town tax sale which is to be held in Crows' hall here on Monday, June 17th.

At this sale there will be sold under the hammer a number of choice lots suitable for both business and residential sites and judging from the enquiries coming in from all quarters there will be a record crowd in attendance and bidding will be brisk.

Activities and prospects in Redcliff at the present time, considering world-wide conditions, are indeed most promising. The Rolling Mills, Foundry, Brick & Coal Plants and Glass plant are all working almost to full capacity and arrangements are now being made to commence operations in the Pressed Brick and Clay Products plants in the near future. Prospects are also promising for securing another shell order for old motor truck factory and negotiations are at present well under way for the establishing of two new industries here in the near future.

On the whole prospects are very encouraging and it is probably for this reason that such an evident interest is being taken in this approaching tax sale.

## Merchants to Meet

Friday June 21st

Some few weeks ago the merchants of the town met for the purpose of discussing matters of interest to them and also to make arrangements to be made to form some system of co-operative delivery. At that time no definite action was taken, as all concerned were not represented.

The meeting was adjourned till a future date to be set when conditions were more favorable. This meeting was to have been held this week but owing to the Chautauque and other attractions this was impossible. It has now been decided to call ALL the merchants in town to meet in Crows' hall on Friday evening, June 21st at 8 o'clock.

At the previous meeting it was decided to form a merchants association. This will be done at the meeting next Friday when the officers will be elected and rules and regulations governing same will be adopted.

As indicated, this meeting place in town will be represented at this meeting, as several matters of interest to all will be discussed.

## Big Orders Coming To Rolling Mill

The Rolling Mills here is surely a 1000 bay apt about these days and if weather conditions and the labor situation 150.15 is not a small sum to be employed more men than ever before.

The demand for the class of goods manufactured at this plant is increasing almost daily and as a result orders are now being booked for months ahead. These are all big orders.

At present, it would be safe to say that just as soon as it can be done 219.25 another shift will be added.

THURSDAY, JUNE 13, 1918.

## A WATER TROUGH.

The extremely hot days of the past week have emphasized the need of some public watering trough in town where both man and beast can get a drink. By this we are not advocating the establishing of an expensive, ever running fountain with 99 per cent show and one per cent service. Just a plain trough for the animals and a cup on a chain for the rest of it, situated at some central and convenient spot. The re-establishing of the system on the vacant lot west of Black's pool room would answer the purpose very nicely. Last year this proved a great convenience to farmers coming to or passing through town.

## CO-OPERATIVE DELIVERY.

In view of the fact that a movement is on foot among the merchants in town to inaugurate some system of delivery which will tend to conserve the man power and feed situation of the country, we reprint the following letter issued by the Conservation Commission of Canada:

"The cost of delivering parcels is approximately four per cent of the total sales, and about one-half of these sales are delivered. Sales of say, \$35,000 per annum would, therefore, have a delivery cost of \$1,400, the delivery customers paying \$700, though receiving no service therefor.

The carry customers, however, are doing more than this. Had all the parcels been delivered, the delivery cost would have been doubled and the delivery customers would have had a delivery charge of eight per cent added to the original cost of the goods.

"Under the delivery system, the service rendered and paid for is as follows:

The carry customer receives \$1.00 worth of goods and pays \$1.04.

The delivery customer receives \$1.00 worth of goods and eight cents worth of delivery service — \$1.08, for which he pays only \$1.04.

Another phase of delivery cost is the number of small orders delivered to one customer. If the cost of each delivery, which averages six to ten cents, were added to each small order, the customer would object. Consequently, it is added on a percentage basis, and thus the customer who groups his wants and places an order of larger amount is mulcted in the delivery cost of the service supplied to the less considerate customer.

"Thus, under the present delivery system, a sur-tax is placed upon the customer who carries his parcels and is considerate in ordering, while the customer who requires delivery service does not pay for the service received.

"Canada is suffering from a shortage of man power; all available help is required for production. Deliveries should be restricted to one per day; all parcels of reasonable weight should be carried home, and so far as possible, co-operative deliveries should be established."

It is very noticeable that no matter what movement is advocated which means a change from old established customs

there are always those who say "it can't be done," and this co-operative delivery is no exception. Yet, like the C. P. R., which some said years ago would never be able to pay for the axle grease used in its cars—co-operative delivery will, even if it has been tried, have proved a success.

Conservation is the watchword today. There must be conservation in all branches of activities. The situation demands it. The question is raised: Are we going to do our bit towards helping solve the problems of the country voluntarily and cheerfully, or are we going to wait until a government measure is passed forcing us to do it.

## HOW ABOUT THE HARVEST?

The shortage of flour and wheat products will be so serious between now and next harvest that every effort must be made to this continent to tide it over. Farmers by producing wheat are helping to win the war. By saving flour they and everybody else in the country may also help towards the same end.

This connection it is of interest to note that in the west it is estimated that the three prairie provinces this spring have sown an increase of about 2,600,000 acres, of which 2,000,000 acres are of wheat. This is the report of J. D. McGregor, director of labor for the Canada Food Board with offices in Winnipeg.

Canadian farmers have responded magnificently to the call for increased production, despite the many other calls that have been heard and answered. The world is at the greatest crisis in its history and the farmers of Canada have realized the fact and shown the true Canadian spirit. It remains now for the people of the towns and cities to organize and sacrifice personal interests in a whole-hearted campaign to save these crops, which have been so successfully planted despite difficulties, so that the harvest will be as great in proportion as the acreage sown.

## EMPLOYMENT BUREAUS.

A circular from the Canada Food Board says:

"There should be a farmers' employment office in each town and village so farmers could put in their applications for men and men could put in their applications for work, and the two parties could thus sort themselves out and get together with some system and some satisfaction. Live mayors and reeves in Canada are taking the initiative in this matter and not a bit too soon."

The Calgary Herald observes: "Has it ever occurred to you as a reader of newspapers that while the editor of the paper stated everything else that you buy has advanced in price—until living costs are almost double what they used to be, there has been no advance in the subscription prices of the daily and weekly papers? No, the newspapers cannot be accused of war profiteering. For that reason the public need not look for the creation of any barons and lords among the newspaper fraternity, although some of them may have their 'milds'."

The prairie fire last Monday showed that it is a very dangerous practice to dump manure promiscuously over the prairie, and the fire chief has asked us to remind people that this should not be done. Fire in a manure pile is not only hard to put out but with a wind such as we had last Monday the burning particles blow all over the country, starting fires in different places at once.

Some of those Ontario farmers who are shading omnivorous barns because their poor dear, baby boy is asked to throw off his swaddling clothes and get in step with men, ought to move down to Texas. Down there they give the molly-coddles for special duty in Halifax, in the event of a hostile raid either by air or sea. It is anticipated that every member of the city council will enroll. The citizens will be supplied with revolvers and will be strictly instructed to wait until they are to the event of an attack from the enemy.

## ARRANGEMENT WITH U.S.

Hon. G. C. Robertson, labor representative in the government, stated in the house of commons that an arrangement had been completed by the United States Department of Labor and the Canadian Department of Immigration and Colonization for the interchange of farm laborers. Several thousand have already entered the Canadian west under this arrangement.

## RECORD FLIGHT IN CANADA.

"Representing the 300 miles distance in exactly two hours, a couple of biplanes of the Royal Air Force of Deseronto dropped into Montreal on Saturday afternoon from a height of 5,000 feet, this being a record for Canada, both as a non-stop journey and in the speed at which they traveled. The two aviators, Major P. V. Woodman and Capt. E. N. Smith, started out with the idea of flying only to Brockville, but a strong westerly breeze aiding, they decided to go on to Montreal.

Canada's net debt on May 31 amounted to \$144,285,087, according to the monthly statement issued by the finance department. Liabilities amounted to \$2,248,748,000 and assets \$1,104,463,000. On May 31, 1917, the total net debt of the Dominion was \$282,790,769.

## DON'T LEAVE REDCLIFF

For anything in our line. We handle pumps, well casing, gasoline engines, Iron Pipe and Fittings, or anything in Sheet Metal from a Water Tank to a Kitchen Sink or a Flue Pipe. We also carry a first class stock of Gas and Plumbing supplies.

Note change of address.

**Maskell & Wray**  
Opposite Gas Office,  
Third Street.

## Halifax Citizens

## Enroll as Police

A number of well known Halifax citizens, including D. McMillan, president of the board of trade, have responded to an appeal by the mayor for 200 citizens to enroll as constables for special duty in Halifax, in the event of a hostile raid either by air or sea. It is anticipated that every member of the city council will enroll. The citizens will be supplied with revolvers and will be strictly instructed to wait until they are to the event of an attack from the enemy.

## TWO CHANCES.

Cheer up! You have two chances, one of being drafted and one of not, and if you are drafted you have two chances, one of not going and one of not dying, and if you go to France you still have two chances, one of getting shot and one of not getting shot. If you get shot you have two more chances, one of dying and one of not dying, and if you die, well, you still have two chances.

## THOUSANDS UNDER LICENSE.

Up to date something like 25,000 licenses have been issued to dealers in foodstuffs by the Canada Food Board, and 100,000 have been put out. These include wholesale and retail grocers,olesale fish dealers, bakers, produce dealers, fruit and vegetable dealers, millers and cereal manufacturers. In addition to these, some 17,000 public eating places to be under license by July 1st.

## BOYS, HOW ABOUT IT?

There are some 30,000 soldiers at the front. How about it? You are on the farm so as to head off the Hun. Are you one of them? If not, why not? Boys from 15 to 19 are required for this service and it is the most important work a boy ever had to do. It is backing up the soldiers at the front. Plan to spend your holidays on the farm this summer.

## FARMERS!

Look over our Stock and get our Prices on all lines of BUILDING MATERIAL

and you will agree with us when we say

**LUMBER IS CHEAP**

We have just received a shipment of No. 2 BOARDS; also No. 2 SHIP LAP, which can be used to advantage in your FARM BUILDINGS and SAVE YOU MONEY.

We have an A. 1 stock of SPLIT CEDAR POSTS, sizes 15 to 18 and 18 to 21, 7 feet; also WILLOW POSTS and DROPPERS; straight, green and averaging well.

CORRAL POLES—A set of these will arrive in a few days.

**OUR PRICES ARE "HAT" PRICES**

**ATLAS LUMBER CO., REDCLIFF**

Phone 11 C. D. SCOTT, Local Manager.

## SOLDIERS OF THE SOIL.

Boys enrolled as farm laborers in the 55th Army of the Soil organization, under the auspices of the Canada Food Board, are being sent to work with the seedlings. In Ontario 15,000 boys have been enrolled, many of them are now in the land in Manitoba over 1,000 are at work; British Columbia Columbia 540; in Nova Scotia 1,398; in Saskatchewan 1,100 are placed; in Alberta that over 1,000 have been already enrolled. New Brunswick and Prince Edward Island have still to be heard from but the enrollment is under way.

## SUGAR FOR CANNING.

Every effort is being made to provide sufficient supplies of sugar for the canning season. The Canada Food Board says that while restrictions in the consumption of sugar in given areas are necessary and must be strictly enforced, still by the present arrangements there will be plenty of sugar for canning purposes when the season arrives. Every effort should, therefore, be made to preserve fruit and vegetables to the utmost permitted by increased production.

## NO THREAT OF SUPPLY DEPT.

A methodical survey of the entire Atlantic coast from the Mexican line to Halifax has failed to bring to light any evidence that German submarines have employed a shore base or have had touch with the shore at any point. Secretary of the Navy Daniels said Monday. This was taken as an official denial of reports that strange signals had been seen at night from remote sections of the coast.

Efforts are being made to raise an army of 100,000 Polish to fight side by side with the allies. Already 27,000 from the United States and 16,000 from South America, as well as 23,000 from Canada are now on their way overseas. They will be paid the same as the French army, 25 cents a day, but they will have to depend upon Canadians and Americans for auxiliary assistance.

## DRAYING AND TEAMING

Of all kinds promptly attended to. Drayage transfer, in connection. See us about your team pool work. First class stabling accommodations.

Signature of Registrant							

## Procedure of Registration

On June 22nd every person residing in Canada, male or female, British or alien, of sixteen years or over, must attend one of the registration booths located in his or her district, and there observe the procedure explained below.

**Where to Register**  
Every person required to register has the privilege of choosing any of the public places provided for the purpose. The location of all such places will be specified in proclamations issued contemporaneously.

The card shown in the illustration is a facsimile of the registration card for males. An advertisement explaining the card for females appears in another paper.

Study the questions carefully as that you will be able to answer them promptly when registering. If you have any special qualification, or feel that your services would be more beneficial to the country in some other line of work, say so.

While all are compelled to register on Registration Day, it is not contemplated by the Government that those who are able and willing to do so should be forced to do so. If such persons will notify their registration to June 22nd of their liability to attend at a place of registration, an effort will be made to register them at some other convenient time.

Remember the Day—June 22nd—Remember the Hour—7 a.m. to 10 p.m. Register only and get your Certificate for your own protection.

24M Issued by authority of Canada Registration Board

## ITEMS OF LOCAL INTEREST

Pennace Hata and white canvas shoes at The Hicks Trading Co. \*\*

Keep cool by wearing B. V. D. and Hatterigan underwear. The Hicks Trading Co. \*\*

H. Stewart, post office inspector, was in town yesterday inspecting the office here. \*

The Box Springs U. F. A. committee is making extensive preparations for the annual picnic on July 1st. \*

The treasurer of the Y. M. C. A. fund here acknowledges this week the receipt of \$48.38 from the employees of the Rolling Mills as their monthly donation to this fund. \*

GEO. LYNN, an old Redcliff boy who has recently returned from the front, was married in Maple Creek on May 26th to Miss Rachel Louise O'Hara of that town. \*

Twenty-one thousand and eighty motor licenses were issued in Alberta during the first four months of the year, showing an increase of 441 licenses over the whole of 1937. \*

A meeting of the U. F. A. in the Bowell district will be held in the Bowell school on Monday, June 13th at 9 o'clock p. m. As business of great importance to farmers will be taken up, a full turnout is requested. \*

New machinery for the development of the Anzac coal mine just across the river from Redcliff is expected to arrive this month and every effort will be made to run the mine on a large scale this fall and winter. \*

The eclipse of the sun was witnessed here last Saturday afternoon about 5.30. At this point the sun was about one-half covered and a very noticeable difference was made in the appearance of things around about. \*

In this issue the Review has a supplement which gives a synopsis of the important legislation passed at the last session of the provincial legislature. As it contains a number of acts of interest to all we would recommend it personal to our readers. \*

The Chautauqua parade arranged for last night drew out a big crowd of school children and it required all Field Marshall Benda's skill and diplomacy to arrange cars for their accommodation. The children were taken to the flat by auto and after parading the streets there, headed by the Redcliff band, returned home. \*

F. W. Holmes, who represents the Calgary Alberta was in town this morning making arrangements for the prompt delivery of that paper every morning. In future all Albertan subscribers can get their paper at Blundell's book store every morning at 5.20 provided the train is on time from the west. \*

Those who have been examining their potatoes notice that already the potato bugs are very plentiful. We would advise all who have a garden to get after these pests at once. A few bugs attended to now may mean preventing a few million from appearing a few weeks hence. \*

C. M. Mansfield of Vancouver, who has been visiting his son I. M. north of town, left last Saturday for Regina to visit another son. Although Mr. Mansfield is now over seventy-seven years of age he is still quite active and while here he finished knitting his fourth pair of socks for the soldiers. \*

Miss H. Reid spent last week end in Maple Creek visiting her parents. \*

Miss McGregor of Medicine Hat, spent last Sunday in town, the host of the Misses Sloops. MEN WANTED—Steady work and good wages. Apply Brick & Coal Works, Redcliff. \*

The Alberta government will spend \$25,000 in Maple Creek in an effort to educate housewives in the use of waste food. \*

See our bills for Big Clearing sale of ladies and children's ready-to-wear and dry goods. It will pay you to buy these goods now. Redcliff Trading Company, Main Comm. \*\*\*

It was probably on account of the extremely warm weather that the dance last Friday night was not as well attended as previous dances. However, those who were present had a most enjoyable evening. \*

A number of meetings will be held throughout the province this month under the auspices of the U. F. A. One of these will be held in Redcliff on Thursday, June 23rd, at 8 o'clock in the evening. \*

It is now illegal to deal wholesale in flour, bran, shorts or any feedstuffs of any kind, or grain, or products of wheat or grass, or hay or straw, without first having obtained a license from the Canada Food Board. \*

A number of young people journeyed to the river banks last Sunday afternoon in the hope of getting cooled off and getting shelter from the sun and wind. They enjoyed their evening meal under the trees. \*

Mrs. Hagerman of Edmonton, and L. M. Reid of Maple Creek, spent last week end in town visiting their sister Mrs. Ed. L. Stone. Mr. Reid has joined the aviation corps and left Sunday night for Toronto to go into training. \*

Mr. M. Soderholm, of the Breckenridge district, called at the Review office today and left \$10.00 for the local branch of the Red Cross Society. Mr. Soderholm is well over the military age but says he feels that there is service for all to render. \*

Robert Everett, formerly night policeman here, has resigned his position and left last Saturday for Calgary. Mr. Everett has fallen heir to a small fortune left him by relative in the old country and intends taking life easy for a while. \*

Reports continue to come in from outside points to J. H. Hanna, director of the Red Triangle campaign in this province, and it is estimated at the present time that the total will exceed \$300,000, which is double the quota for Alberta. \*

## Religious Debate Draws Big Crowd

The Redcliff theatre was filled to capacity last Friday evening, to witness the debate between Rev. K. T. White of this town and F. W. Crawford, of Vancouver, on the subject: "Received that Christ's Kingdom Was Established at His First Coming." Mr. White spoke for the affirmative and Mr. Crawford for the negative. In opening the debate, Mr. White outlined the meaning of the word "kingdom" and "established" and his interpretation on the words "kingdom" and "established" and the course of his remarks proceeded to substantiate his statements. Mr. Crawford, for the negative, claimed that the world was divided into periods and that the year 1914 was the beginning of Christ's rule on earth. \*

Both speakers had an unlimited supply of Bible passages to substantiate their claims and both presented them in a very able manner but as no judges were appointed it was left to each individual present to decide for himself and himself as to who put up the most convincing argument. \*

## Noted Canadian Baritone Coming

H. Ruthven MacDonald Will be at Chautauqua.

H. Ruthven MacDonald, the noted Canadian baritone, one of the most popular singers of the Dominion, will give two recitals at Chautauqua on the fifth day. While Mr. MacDonald sings all manner of songs and \*

H. RUTHVEN MACDONALD, sings these well, he usually gives precedence to the old songs and ballads which every one loves and longs to hear from a macdonald. As MacDonald, The Evening Times of Edinburgh, Scotland, says, "We doubt if there is MacDonald's equal in Scotland." \*

Mr. MacDonald will be at the Chautauqua here next Wednesday Afternoon and Evening. \*

## Rev. White Leaving For North Country

We regret to learn that recent plans in connection with the Baptist church will mean the removal from our midst of Rev. F. T. White, who has been pastor of the Baptist Church here for some time past. It will be quite a surprise to his friends here to learn that next Sunday will be his last one in Redcliff as pastor. He leaves Monday for his new charge north of Edmonton. Since coming to Redcliff Mr. White has, besides attending to his duties in town, established an enthusiastic congregation in the Harvest Vale district where he preached every Sunday. His friends in that locality will regret his sudden departure. \*

## MISCELLANEOUS ADS.

STRAYED—To farm of undersized, one red cow with white face, branded on YB. Brand not distinct, may be YB. Owner can get same by paying expenses. D. H. Williamson, Box Springs P. O., Alta. \*
